Dr Sun

*line of suntan cosmetics is a guarantee
of the highest quality, convenient usage
and effective protection against the
harmful influence of the sun.*

The only brand on the Polish market which can boast
over 20 years of experience in sun protection for the
skin.

Appreciated by consumers – Polish market vice leader in
2012 and 2014 *

SERIES HIGHLIGHTS

- Highest quality, photostable system of UVA/UVB filters compliant with the EU standard which ensures effective protection against sunburn.
- High water resistance of the preparation ensures extraordinary protection of the skin also when swimming.
- The balms do not cause phototoxic irritation.
- Fragrance composition does not contain allergens.
- Optimal protection against UVA radiation reduces risk of sun allergies, as well as long-term dermis defects in children.

SUN UNDER CONTROL – IMPORTANT ADVICES:

- * Apply a significant amount of the product (balm/cream/oil) onto the skin about 20 minutes before getting out in the sun. In order to ensure the best protection, repeat application regularly (at least every 2 hours) as well as after getting out of the water and after drying the body with a towel.
- * Avoid contact with eyes and with clothing.
- * Protect infants and children against direct activity of the sun. Prolonged sun exposure may pose health threat.
- * Avoid the sun, especially between 11am and 3pm, even if you are using protective preparations.
- * Always wear a sun hat and clothing to ensure protection the children against the sun.
- * Remember that no preparation with UV filters can guarantee 100% protection.

- A formula rich in peptides obtained from cottonseed protects the child's skin against adverse effects of sun exposure.
- D-Panthenol and glycerine soothe irritations, deeply moisturise and protect the skin against excessive water loss and overdrying of the epidermis.
- Clinically tested under dermatological and paediatric control.
