FACE CREAMS

- **EXTRA OILS line**
- **ELIXIR MULTI-COLLAGEN line**

- products designed to meet **the highest standards in quality and technology** as confirmed by **ISO** and **GMP** certificates, manufactured by **Dax Cosmetics**, part of the corporation of Japan.

Product safety, quality and effectiveness are proven by over 50 tests carried out by the laboratories of Dax Cosmetics and by independent experts in dermatology and cosmetics.

ELIXIR MULTI-COLLAGEN

**MAKES YOUR SKIN LOOK YEARS YOUNGER!
SENSATIONAL FEELING OF RENEWED SKIN
- VISIBLY SMOOTHER LOOKS!**

REVOLUTIONARY ANTI-WRINKLE CREAMS SILKY CONSISTENCY AND EXCELLENT ABSORBABILITY

- Reduces the appearance of even deep wrinkles
 - Helps fight loss of firmness
 - Gives a velvety feel to the skin

ACTIVE INGREDIENTS:

MATRIKINES PAL - aid the stimulation of the **7 key factors** of a youthful skin: **type I, IV, VII, and XVII collagen, fibronectin, laminin gene, and hyaluronic acid.** They leave the skin feeling wonderfully smooth and reduce the appearance of all types of wrinkles.

4D HYALURONIC THREADS - help to prevent loss of firmness in the skin and to stimulate the production of new hyaluronic threads which create the extracellular matrix of human skin. They seemingly plump up wrinkles and give the skin a firm, lifted appearance.

PEPTIDE-LIFT - a concentrated peptide which helps stimulate the renewal of structural fibres in the skin, promoting a deeply regenerated and rejuvenated appearance. Leaves the skin looking wonderfully firmed and lifted.

GRAVITY CONTROL XC - a unique modelling complex which helps to fight the degradation of elastin fibres responsible for a firm and smooth face contour. Makes the skin appear lifted and the features clear-cut to create a decidedly younger look.

SPHERICAL LIPOFILL - a highly effective tissue filler which helps promote lipogenesis in the cells to reduce the appearance of both vertical and horizontal lines and create the sensation of a wonderfully lifted skin.

PEPTIDE COMPLEX IQ - helps to achieve rejuvenating effect and increased level of fibroblast activity of a 15-year-younger skin.

PROTEIN X-RS - complex of soy and rice proteins helps to improve microcirculation and reduce the appearance of crow's feet and dark circles, as well prevent photoageing.

PLANT STEM CELLS - extracted from the alpine rose, help to strengthen and regenerate the epidermal lipid barrier, as well as to protect the skin's cells from external factors. The appearance of the skin around the eyes seems significantly firmer and wrinkles are visibility reduced.

LIFTING CREAM

HELPS TO SMOOTH THE WRINKLES AND MAKE THE SKIN APPEAR FIRMER

HELPS STIMULATE 4 TYPES OF COLLAGEN

SPF10 DAY & NIGHT

- MATRIKINES
- 4D HYALURONIC THREADS

THE POWER OF 4 OILS OF YOUTH in each cream

ARGAN OIL - due to its unparalleled beautifying properties is often called the royal oil. Rich in omega-3, -6, and -9 fatty acids, it helps counteract loss of firmness and leaves the skin feeling wonderfully regenerated and rejuvenated.

MARULA OIL - a miraculous oil with a high content of oleic acid and excellent moisturising qualities. Lends the skin a fresh, healthy glow, ensuring a well-rested morning look.

JOJOBA OIL - a golden oil which shows a high level of biological compatibility with human skin. Helps to regenerate, firm, and nourish the skin, making it silky-soft to the touch.

COCONUT OIL - a delicate oil from the Polynesian islands, distinguished by its outstanding moisturising and smoothing qualities. Helps improve skin elasticity and resilience.

MONOI OIL - extracted from the imperial Tiaré flowers, has outstanding smoothing qualities. It intensely moisturizes the skin and helps soothe irritations. Due to the presence of vitamin E, it slows the appearance of ageing in the skin.

MACADAMIA OIL - rich in vitamin A and phytosterols, helps firm the skin and to protect it against premature ageing. Leaves the skin feeling regenerated and supple.

FLAVONOIDS - help stimulate the regeneration of collagen and elastin fibres, leading to a visible reduction in the appearance of wrinkles and markedly firmer-looking skin.

VITAMIN C-LIFT - a concentrated form of pure vitamin C, effectively helps to stimulate the regeneration of collagen fibres which create the structural framework of a firm, youthful skin.

SPHINGOLIPIDS - are the cement which ensures adequate skin cohesion, making the skin look firm, resilient and thoroughly moisturized.
